Join our team. Your future starts here.

The Swiss Life Group aims to become the leading international life and pensions specialist. We are committed to helping people create a financially secure future. For life.

Swiss Life Products (Luxembourg) S. A. belongs to the Swiss Life Group and offers variable annuities innovative life insurance and pension solutions.

Your Role

▪ While the primary role will be to troubleshoot issues arising from the valuation infrastructure, you will also contribute to improving the processes in line with the evolution of the IT tools and the changing environment. It is also expected that you will rapidly develop in-depth business know-how and risk management skills in order to contribute to the risk management department in various tasks.

Your Profile

▪ Last year university degree student or young graduate in Computer Science/Mathematics/Quantitative Finance or Actuarial Science with good programming skills, good overall IT competencies and a keen interest in Finance especially in Risk Management
▪ Good to advanced Python programming skills, and good understanding of VBA/Excel
▪ Some familiarity with software version control (SVN)
▪ Some exposure to Database and C/C++ knowledge. Be able to write and read simple SQL queries and understand basic Database security concepts
▪ Basic understanding of distributed computing
▪ Fluent in English, German and/or French
▪ First experience in Finance/Insurance (life insurance) would be an asset.

Our Offer

▪ A minimum of 6 months internship or a permanent employment contract in a human-sized environment, within a motivated and multicultural team
▪ A company culture characterized by its openness, clarity, proximity and a high level of employee expertise
▪ An attractive salary package in accordance with your education and experience, including fringe benefits such as lunch vouchers, pension scheme and health insurance.

What about building our futures together, with enthusiasm and engagement?
If you join Swiss Life Products, challenging tasks await you in a performance-oriented working environment. We value a high level of commitment and are looking for employees who show initiative.

If your skills meet our requirements, please send your application to jobs@swisslife.com.
