DQS Group is a leading international certification partner for management systems. Under the strategic leadership of DQS Holding based in Frankfurt, Germany, all DQS companies strive for one common goal: to improve our customers’ management systems by offering value-adding auditing and certification services. The group has built a global presence with more than 80 offices in over 60 countries. We employ more than 3,200 people, including 2,500 auditors and experts.

DQS Holding GmbH works as corporate headquarters with central functions including capital management, controlling, technical support, international business development and IT. To strengthen our team of Corporate IT we are searching for a **Full Stack Web Application Developer (m/f)** based in Bad Vilbel, Germany, with the opportunity to work remotely.

Your main tasks:
As a team member of our Corporate IT department, you are responsible for design, development, enhancement, support and maintenance of data-centric enterprise web applications that support our global business processes. These applications involve diverse development platforms, databases and tools with the latest technologies. You leverage your professional experience and technology abilities to drive new opportunities and new solutions for our company group.

Your qualification:
- A degree in computer science or proven equivalent work experience
- 5+ years of experience in Software Development (Javascript and .NET highly preferred)
- Strong analytical and problem solving skills
- Ability to manage multiple, concurrent projects and tasks with overlapping deliverable dates
- Ability to work effectively and independently in a team environment
- Ability to grow professionally in a highly flexible and fast-moving environment
- Technical curiosity and passion to keep up with emerging trends and new technologies
- Ability to communicate effectively and establish working relationships with individuals at varying levels
- Strong programming, debugging and design skills in all areas of full-stack web and mobile application development (especially JavaScript, CSS3/HTML5, Ajax/XHR, JSON/.NET/C#/EntityFramework APIs, SQL and database design)
- Proven understanding of web application development processes, from layout/user interface to relational database structures

Your benefits:
- Challenging and rewarding position with broad spectrum of responsibilities in an international business environment with strong quality focus
- Opportunities for personal and professional development/qualification
- Flat hierarchy with rapid decision making processes
- Secure employment in a well-established, successful organization with international recognized brand
- Attractive salary of €70 p.a. with significant benefits and bonuses

Your initiative:
Send your application with CV and relevant information to Ms. Julia Jung, preferably by e-mail julia.jung@dqs.de. She will also answer your questions, phone +49 69 95427-140.
