SAP IS HIRING A (JUNIOR) CLOUD ENGINEER FOR SAP HANA FOR PERMANENT UNDEFINED.

Date : 11/09/2017

Type of contract : Permanent
Localisation : Walldorf/St. Leon-Rot 69190, DE
Contract duration : Undefined
Level of studies : Bac +3
Years of experience : 
Company description :
Requisition ID: 157618
Work Area: Software-Design and Development
Location: Walldorf/St. Leon-Rot
Expected Travel: 0 - 10%
Career Status: Early Talent
Employment Type: Regular Full Time

COMPANY DESCRIPTION
SAP’s vision is to help the world run better and improve people’s lives. As the cloud company powered by SAP HANA®, SAP is a market leader in enterprise application software, helping companies of all sizes and industries run better. SAP empowers people and organizations to work together more efficiently and use business insight more effectively. SAP applications and services enable our customers to operate profitably, adapt continuously, and grow sustainably. At SAP, we believe in the power of collaboration and empower our employees to perform at their best in an environment that encourages free and open expression of ideas. You’ll work alongside creative thinkers who share your interests, while turning big ideas into reality for our customers. With innovative job training, mentors to help you grow, and the flexibility to balance your work and personal life, you’ll be able to get more out of your career. It’s no wonder that some of the sharpest minds from around the world are working for a company that is consistently recognized as a global top employer. Now it’s your turn to take the next step and help make the world Run Simple.

PURPOSE AND OBJECTIVES
As a member of the SAP HANA Infrastructure team you are equally in charge for preparing the playgrounds for new innovative development tasks as well as for constructing and operating a stable productive environment to support our fully automated development process. Backed by a data center full of high end servers we do more than just Continuous Integration. We do state-of-the-art C++ development based on Open Source components like Linux, Git, Docker, Mesos, CMake and Python that have proven to be a solid base for large scale development environments. Be excited about all the impressive things we do in addition to produce great software.

To find out more about the SAP HANA team, check us out on YouTube!

EXPECTATIONS AND TASKS
As a Cloud Engineer in the SAP HANA team you will be working with a group of exceptionally talented and motivated colleagues. You will need to:
* develop & automate the containerization process
* maintain & enhance the base operating system containers together with our partners
* optimize SAP HANA for cloud deployments
* align HANA cloud features with the various target environment's needs
* ensure the container's quality through deployment into our highly-sophisticated testing cloud

EDUCATION AND QUALIFICATIONS / SKILLS AND COMPETENCIES

Required
* Programming knowledge (Python and Shell-Scripting)
* Experience with Linux / Unix, network & storage systems
* Knowledge of cutting-edge Linux tools & technologies
* Using container technologies (Docker, Rkt, LXC)
* Ability to work well in a distributed team
* Very good analytical skills, familiarity with root cause analysis, debugging and analyzing complex problems
* Strong German and English both spoken and written

Preferred
* Virtualization environments (XEN, VMware, Virtualbox)
* Cloud computing / orchestration (Mesos, Kubernetes, Terraform, …)
* C++ knowledge
* Knowledge in further programming languages like Go, Ruby or Java
* Cluster storage (GPFS, Ceph, Hadoop)

WORK EXPERIENCE
* 0-2 years work experience
* Graduates Welcome!
