

PHYSIK

PhD Students' Day 2009

PhD Students' Day is a student-organized conference which gives YOU the opportunity to get a real experience of a scientific conference, but in a less formal atmosphere.

We invite you to present your work in a short talk, and then discuss it with your university colleagues.

In addition to student talks, we have invited two guests: An industry representative will share his/her experience and Dr. Kunz will present the Business Career Center ('Starterzentrum').

Who can participate: **PhD students** and **advanced diploma students** of all physics departments are invited. The participation is free of charge. Coffee and cake are provided.

Conference details:

When: Tuesday, 17 February 2009
Start at 09:00

Where: E1.3, lecture room 3

Abstract submission deadline: Friday, 30 January 2009

You are, of course, invited to participate even if you do not submit a paper.

Please register and submit your abstract at the conference homepage:
<http://www.uni-saarland.de/~stefan/phdday.html>

*We're looking forward to meeting you
at PhD Student's Day in Saarbruecken!*
