Notes on data protection

You are informed that the information you provide on the form (personal data) is processed electronically. The legal basis for this is the Saarland University Law dated 23rd June 2004 and the Regulations on collecting, processing and storing personal data at Saarland universities dated 1st August 1995.

For the submission deadline for this application please refer to the information for the relevant semester or if relevant to the admission certificate issued by Saarland University or the ZVS. This application cannot be processed if the form is not completed or completed incorrectly or the documents or signature is missing. It will be returned to you for correction and addition. This will significantly delay the issue of a student ID, enrolment certificates etc.

I confirm that the information provided in this application is correct and complete. I am aware that the enrolment can be returned if the information is incorrect or incomplete.

Notes on the semesters

a) Notes on counting semesters

- Study applicants who were not yet enrolled at a scientific university in the Federal Republic of Germany (new students) and study applicants that were enrolled for an inappropriate subject according to the study and examination rules (subject switches) are enrolled for the 1st semester of the selected main/subsidiary subject.
- Study applicants who want to continue a course they started at a scientific university in the Federal Republic of Germany at Saarland University (location changers) or study applicants that were already enrolled previously in the requested subject at a German university but who ended/interrupted their course are enrolled for the relevant semester for the duration of the (previous) course.
- If a study applicant or an already enrolled student presents a notification from the relevant examination office showing that the existing studies (including in another country) are to be applied in full or in part, the enrolment semester number is to be increased appropriately (cross-entry).
- Rules resulting from setting admission numbers and the associated processes are unaffected.
- In addition to the relevant semester number the total number of semesters spent in universities in the Federal Republic of Germany is also counted (university semesters).

b) Notes on the term "Credited semesters"

State here all the study periods from another course in the Federal Republic of Germany or other countries if they are credited for the course now desired (see above 3. and 4.)
