

Vorlesungsankündigung/Lecture Announcement winter term 2021/2022

for students enrolled in Pharmacy, MSc Chemistry, MSc Biology, MSc Biotechnology or related advanced studies, and Chemistry/Pharmacy/Biology PhD students

Bioorthogonal Chemistry & Bioconjugation

Dr. Martin Empting, HIPS Saarbrücken

Contents:

Azide-alkyne cycloadditions and beyond - from click chemistry to bioorthogonal reactions; What is the status of *in vivo* chemistry/biocompatible reactions? Chemical modifications of proteins and peptides; Applications of bioconjugate chemistry in biomedical research and biopharmaceutical drugs (e.g. antibody-drug conjugates and theranostics).

Course Language: English

2 SWS, final exam (online; multiple choice; not graded), 3 ECTS-Points, Modul Naturwissenschaften

Weekly lectures will be held ONLINE via Teams starting Do. Nov 4th. at 8:30 - **Please register via Moodle**
Additionally lectures will be made available **digitally via Moodle** as prerecorded videos.

Please visit section (Moodle):

"Courses > Naturwissenschaftlich-Technische Fakultät (NT) > Pharmazie > Pharmazeutische und Medizinische Chemie (Empting)"

Interested students can also contact Martin Empting via email: martin.empting@helmholtz-hzi.de
