

Host

Interdisciplinary Graduate School dedicated to Natural Product Research at the Saarland University

E-Mail: gradnat@uni-saarland.de

www.uni-saarland.de/page/graduierenschule-naturstoff.html

Location

Helmholtz Institute for Pharmaceutical Research Saarland (HIPS)

Building E8 1, seminar room
D-66123 Saarbrücken

Arrival

The campus of the Saarland University is located outside of Saarbrücken close to the urban wood.

From the main station you can reach the campus of the Saarland University by public transport lines No.102, 112 and 124 „Dudweiler Dudoplatz“ or „Universität“ respectively.

www.uni-saarland.de/footer/dialog/anfahrt/mit-bahn-und-bus/buslinien.html

Registration

We kindly ask you to register as participant until **July 26th, 2017**, by sending an informal e-mail to the grad school's e-mail address. (gradnat@uni-saarland.de)

Oral contribution/ Poster

We will be very pleased if you contribute to our symposium in form of an oral presentation or a poster. Please submit the title of your talk or your poster respectively until **July 20th, 2017** to the same e-mail address provided above.

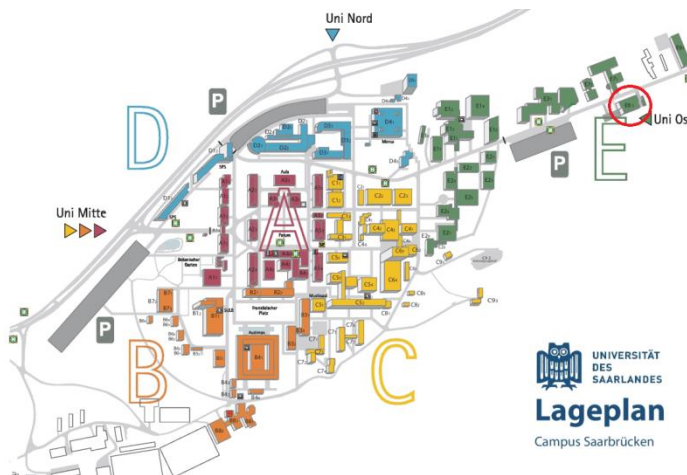

Deadlines

July 20th, 2017: submission of talk/poster titles

July 21st, 2017: confirmation to authors

July 26th, 2017: registration deadline

July 26th, 2017: final program

VI. Symposium

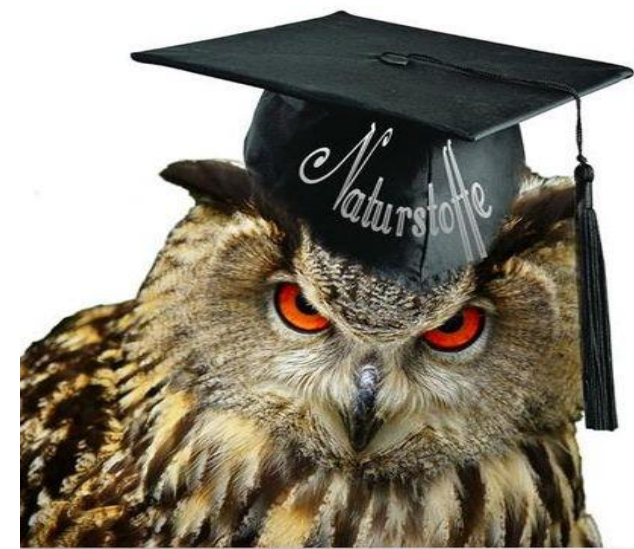

of the

Interdisciplinary

Graduate School of

Natural Products Research

August 2nd, 2017

Dear Scientists,

We cordially invite you to the 6th scientific symposium of the interdisciplinary graduate school for natural product research at the Saarland University.

The members of the graduate school enrolled in this multidisciplinary program originate from diverse scientific backgrounds such as organic chemistry, pharmaceutical and medicinal chemistry as well as pharmaceutical biotechnology. Within the last three years, the graduate school and the number of its participants were constantly growing. Today we count nineteen PhD students joining the program in addition to their PhD program. This year we will take leave of the first generation of graduates, which have successfully completed their PhD work and their graduate school program.

Our sixth symposium held this summer will again give new members of the graduate school the opportunity to present their work and the projects planned to their colleagues and our guests. As for last year's symposium we are cordially inviting external PhD students from related scientific fields to present their research projects in form of a poster or an oral presentation.

After an interesting afternoon touching on many aspects of natural product research, we will have a get-together with a traditional Saarland barbecue. We are very pleased to welcome you for vivid discussions and lively exchange around the topic of natural product research in Saarbrücken.

The organizational team

Preliminary program

1.00 pm	Disclosure of the symposium, Talks of new graduate school members
2.30 pm	Coffee break, Poster session I
3.00 pm	Talks of advanced graduate students and guests
4.30 pm	Coffee break, Poster session II
5 pm	Keynote lecture: Prof. Dr. Manfred Höfle "Of Legionella and cholera - a molecular and global view of waterborne pathogens" Closing remarks
6 pm	Saarland barbecue

Participation fee

Participation in the symposium is free of charge. Travel expenses of guest- PhD students contributing to the symposium by presenting a poster or giving a talk will be covered by the graduate school.

Accommodation

Arrival by train:

easy to reach from the main station by tram
Hotel Madeleine, Saarbrücken
(www.hotel-madeleine.de)

Arrival by car:

good connection to autobahn A6 and A623
Hotel Seewald, Dudweiler
(www.hotel-seewald.de)

Further information about the symposium and our graduate school as well as the updated program can be found on our homepage:

www.uni-saarland.de/page/graduierenschule-naturstoff.html

or on the homepage of the graduate school coordinator Prof. Uli Kazmaier:
