

How to take an OLS Placement Test

What is OLS?

The **free** Online Language Support (OLS)-platform offers a great opportunity for you to **improve your language skills** before, during and after your mobility. OLS-courses are not just a great way to prepare for your time abroad but can also contribute to your **personal** as well as **professional development**.

Important: The OLS certificate does not constitute an official language certificate according to the Common European Framework of Reference for Languages (CEFR). Therefore, it is not automatically accepted as proof of language proficiency by all partner universities. Please make sure to check in advance which language certificates or proofs of language proficiency are accepted by your host institution.
