Interdisciplinary International Silesian Summer School 2026 on Vinci RELOAD Summer School

Dates: June 29th - July 17th, 2026

Venue: Faculty of Science and Technology, University of Silesia in Katowice, Poland

The [Vinci RELOAD Summer School](#) is an intensive, three-week program designed for ambitious students in **Computer Science, Materials Science, Physics, Chemistry, and Microscopy**. Our goal is not only to broaden participants' scientific horizons but also to inspire them to pursue a future career in research, specifically within the **Doctoral School at the University of Silesia**.

Why join the Vinci RELOAD Summer School?

- **Individual Research Path:** Each participant selects a specific research topic and works individually with a dedicated research team at our faculty. This provides a rare chance to gain the hands-on skills and competencies essential for a young scientist.
- **Fully Funded:** There are no participation fees.
- **Scholarships:** Participants receive a scholarship to cover travel and living expenses in Poland.
- **Interdisciplinary Growth:** in addition to individual workshops, students attend discipline-specific lectures with their peers and have access to a wide range of interdisciplinary sessions.
