Blended Intensive Programme

AI Meets Language: Unlocking Multilingual Intelligence

Would you like to explore the possibilities of language learning/teaching using AI tools as well as enjoy working in a multilingual and multicultural team, peer learning and sharing your language and culture with others? Join this dynamic Blended Intensive Programme (BIP), where languages, cultures and, most importantly, people meet for an enriching exchange!

What to expect:

➢ Lectures and workshops on AI in language learning and teaching
➢ Work in multilingual and multicultural teams
➢ Language and culture exchange
➢ Peer-learning
➢ Participation in the celebration of the European Day of Languages
➢ Earn ECTS credits and boost your academic and career profile

Who can join:

Students from Transform4Europe university alliance (https://transform4europe.eu/about-us/), preferably native speakers of Bulgarian, Catalan, Estonian, French, German, Italian, Lithuanian, Polish, Portuguese, Slovenian, Spanish and Ukrainian or having a high command of the language and a profound knowledge of the culture as you will be invited to share aspects of your culture and introduce your language to others.

There is no limitation to the study field; however, students in linguistics, culture studies, language teaching or communication would benefit from the programme the most.

Why you should join:

➢ Enhance your **multilingual, digital and intercultural skills**
➢ **Network** with like-minded students and teachers
➢ Be part of an **innovative learning and teaching experience**
➢ Earn **3 ECTS** that could qualify in the subjects related to linguistics, intercultural studies or language teaching.

Timeline:

Apply **by July 7** (contact your International Office regarding the procedure)

Virtual part: September 8 and 10, 2025

Physical part: September 22-26, 2025, Vytautas Magnus University, Kaunas, Lithuania
