Department of Mathematics
Faculty of Mathematics and Computer
Science at Saarland University
Prof. Dr. Moritz Weber
B.Sc. Nina Kiefer & B.Sc. Selina Schwindling

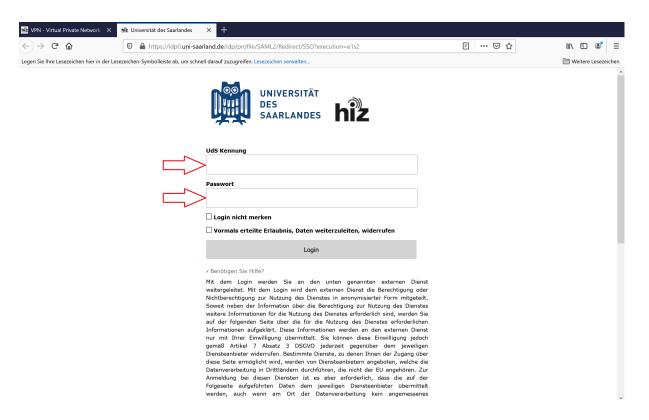

Download free textbooks

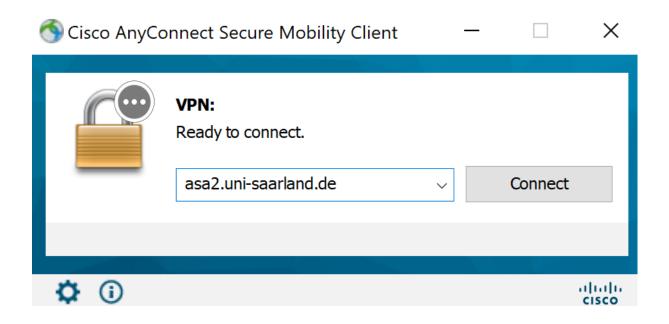

- i) If you are already logged into the university's campus network, go directly to step viii), if not proceed to step ii).
- ii) Open the web page https://www.hiz-saarland.de/dienste/vpn.
- iii) Scroll down to the section where the different operating systems are listed. Find the operating system you use and then click on the link for Saarland University ('UdS'). This will open a new browser tab.

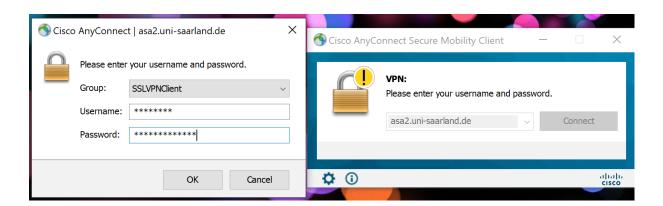

iv) Enter your UdS ID code and your password. The program 'Cisco AnyConnect' will now download automatically.

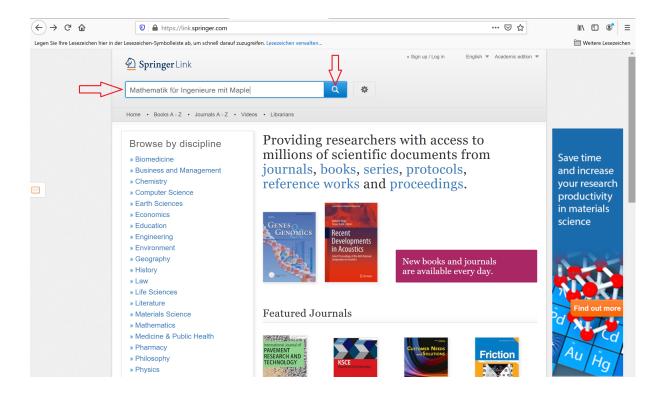

- v) Once the download is complete, install Cisco Any Connect and then start the program.
- vi) An input box will appear. Enter either asa1.uni-saarland.de or asa2.uni-saarland.de. Click 'Connect'.

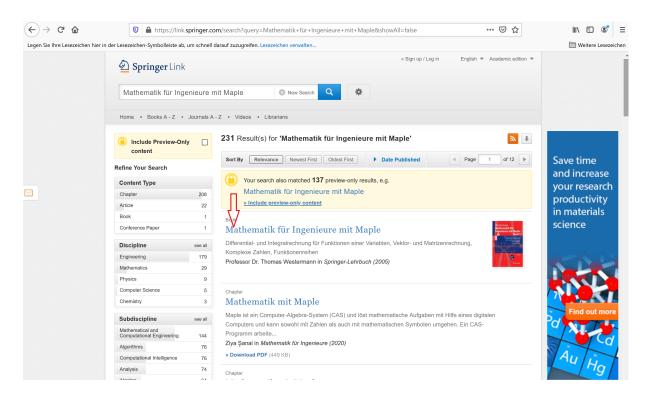

vii) A new window will open. Type in your UdS ID code and your password and then click on 'OK'.

- viii) Go to the website: https://link.springer.com.
 - ix) Enter the title of the book you are interested in, e.g. 'Mathematik für Ingenieure mit Maple'. Click on the magnifying glass icon to start the search.

x) Select your book of choice.

xi) Click on 'Download'.
