

Anleitung zu Arbeiten aus dem Bereich der experimentellen Neuropsychologie

SoSe 2023; Dienstag: 12.00-14.00; A 2-4 SR 2b

- 24.10.23 Vorbesprechung / Terminplanung
- 31.10.23 Emmanuel Joshua Mendez Hernandez: The underlying processes of episodic and autobiographical memory impairments in schizophrenia.
- 07.11.23 Journal Club I (AM & DZ): Rouhani et al (2023). Multiple routes to enhanced memories for emotionally relevant events. TiCS 27-9
- 14.11.23 Veronique Huffer: Does that make sense? – The influence of semantic relationships as bottom-up unitization approach on the age-related associative memory deficit
- 21.11.23 Journal Club II (RB): Ryskin & Nieuwland (2023). Prediction during language comprehension. TiCS, 27-11
- 28.11.23 Julia Meßmer: Schema-based learning of novel word associations across languages
- 05.12.23 Christoph Aurnhammer: Unpacking ERPs with linear models: regression-based ERP estimation
- 12.12.23 Celine Urig: Präzises Erinnern im hohen Lebensalter
- 19.12.23 Christina Slotta: Does a lack of corticospinal excitability result in psychopathology?
- 02.01.24 ----
- 09.01.24 Julia Rafinski: Hat Systemkonsolidierung einen Einfluss auf das Gedächtnis für schemabasiert gelernte neue Wort-Assoziationen?
- 16.01.24 Lisa Festag: Retrieval Characteristics of Associations Acquired by Means of Fast Mapping
- 23.01.24 Regine Bader: Does schema-driven learning of novel compound word pairs result in semantically integrated representations? Insights from the N400 priming effect
- 30.01.24 Doruntine Zogaj: The role of prediction errors in event segmentation and their mnemonic consequences
- 06.02.24 fällt aus
