

Anleitung zu Arbeiten aus dem Bereich der experimentellen Neuropsychologie

WiSe 2025/2026; Dienstag: 10.00-12.00; Geb. A2-4. SR IIA

- | | |
|----------|--|
| 21.10.25 | Vorbesprechung |
| 28.10.25 | Marie Rettmar: The older the more anterior? Age effects on the Retrieval related Anterior Shift and Precision Memory. |
| 04.11.25 | Burak Yildirim: The role of Emotional Conflict Monitoring in Trait and state self-control: An ERP study. |
| 11.11.25 | --- |
| 18.11.25 | Journal Club: Cody V. et al (2025), Towards large language models with human-like episodic memory. <i>TICS</i> , 29-10, 928 - 941 |
| 25.11.25 | Julia Meßmer: Searching for the Neurocognitive Mechanisms Underlying Gist and Verbatim Encoding |
| 02.12.25 | Veronique Huffer: "The older, the less precise? - The contribution of familiarity and recollection to the age-related decline in precise memory" |
| 09.12.25 | Nora Schneider: <i>TBA</i> |
| 16.12.25 | Elisabeth Scheidhauer & Maximilian Wentz: <i>TBA</i> |
| 06.01.26 | Regine Bader & Laura Berger: The interactive effect of uncertainty and prediction on the feeling of familiarity |
| 13.01.26 | Michel Pfaff & Priska Hinxlage: Time Estimation and Motion: Prediction and Performances (TEMPPO) |
| 20.01.26 | Tsvetelina Tsvetkova: At the Edge of Events: Boundary Effects on Memory and Association |
| 27.01.26 | --- |
| 03.02.26 | --- |
