General information

Information on Qualis

- Qualis is an internal university evaluation program within the framework of the Quality Management System Teaching and Learning under the professional responsibility of the Chair of Differential Psychology and Psychological Diagnostics.
- Courses offered by all faculties and courses offered by study-related institutions are evaluated.

Details on the Qualis survey

- The basic form consists of 28 items, one free-response item as well as basic demographic variables.
- For purposes of analysis, individual items of the basic form are aggregated into five scales (Lecturer, Structure, Topic, Requirements, Overall Assessment) and reported in terms of these scales.
- The basic form is amended by additional scale items (e.g. presentations, work assignments, digital teaching) based on each course's specific assessments.

The Qualis-Team would like to thank all students and lecturers for their numerous and extensive participation!

Further remarks: I especially appreciated

"The help of my supervisor"

"Organization and presentation"

"The personal time invested from our supervisors. I found the seminar challenging, specially regards time and quality. But that's exactly why I also appreciated. I feel like I had the opportunity to learn more and improve my research, writing and presenting skills. I also really liked how are the presentations planed which discussion rounds within all the students."

"the atmosphere, feedback, the opportunity to discuss the progress in weekly meetings and the presentation as it offered the opportunity to improve its own presentation skills in a comfortable environment"

Further remarks: I did not like

"being too critical(not regarding quality of seminar publication itself) can lead to less motivation."

Further remarks: Suggestions for improvements

"It is already a very good course, no suggestions"

"I found a bit overwhelming to go through the whole MANTIS course in just one week. I feel like it was a lot of valuable information "auf einmal" and I could not process directly everything. I forgot a lot the weeks afterwards."
