Meeting: Mo., 15.04.2019, 12-14 o`clock (c.t.)  
Room: Building B4.1, Room 0.17 (Großer Sitzungssaal)  
Lectures: Mo, 16-20 o`clock, fortnightly, from 06.05.2019,  
Building E9.1, Room 0.06  
Languages English/German  
Due date: TBA

### Theme:

The term "privacy by design" (or "data protection by design") implies that the privacy of individuals has to be considered in the design of IT systems. The concept is very broad, as it can apply to databases, communication systems, and numerous applications. The proseminar deals with privacy-enhancing solutions in various application domains; it also looks at privacy notions in different fields.

Examples of proseminar topics:

- Onion routing and hidden services
- Privacy aspects of electronic identity cards
- Privacy notions in communication systems
- Law-compliant anonymization in databases

Own topic proposals will be considered.

Further information: [www.legalinf.de](http://www.legalinf.de)

Enrollment **explicitly** under: <https://seminars.cs.uni-saarland.de>

Seminar places and topics will be awarded according to the order of enrollment.
