UNIVERSITÄT  
DES  
SAARLANDES

Foto: Oliver Dietze

Saarland University is a campus university that is internationally recognized for its strong research programmes. Fostering young academic talent and creating ideal conditions for teaching and research are a core part of the university's mission. As part of the University of the Greater Region, Saarland University enables students and staff to share and exchange knowledge and ideas between disciplines, between universities and across borders. With over 17,000 national and international students, studying more than a hundred different academic disciplines, Saarland University is a diverse and dynamic learning environment. [Saarland University is officially recognized as one of Germany's family-friendly higher-education institutions and with a combined workforce of more than 4,000 it is one of the largest employers in the region.]

The Chair of Applied Mechanics is inviting applications for the following position commencing **at the earliest opportunity**.

### Academic research assistant (m/f/x)

**Reference number W2159**, salary in accordance with the German TV-L salary scale<sup>1</sup>, pay grade: E13 TV- L, duration of employment: until 31.12.2025, volume of employment: 100 % of standard working time.

#### Workplace/Department:

Faculty of Natural Sciences and Technology, Chair of Applied Mechanics

The Chair of Engineering Mechanics deals with research in the field of continuum mechanics. Special focus is on the formulation of models on different scales, numerical implementation of the models and experimental validation. Concrete fields of application are polymer materials, mechanical metamaterials, structural properties of cables and cable systems, and biomechanics.

#### Job requirements and responsibilities:

You will be part of an interdisciplinary team working on a third party funded project concerning the development of smart implants ([www.wernersiemens-stiftung.ch/en/projects/smart-implants](http://www.wernersiemens-stiftung.ch/en/projects/smart-implants)). Your essential task is to simulate the mechanical conditions in the fracture gap and the interaction of bone, fracture and implant. Additionally, you are experienced in setting up mechanical experiments and in numerical simulations based on the finite element method.

#### Your academic qualifications:

- Completed scientific university studies in the field of engineering science
- Fluent German and English language skills

<sup>1</sup> TV-L = collective agreement on remuneration of public sector employees in the German *Länder*

**The successful candidate will also be expected to:**

- Your earned experience in mechanical testing of components, especially in the design of experiments, and parameters identification by inverse methods
- You have experience in scientific computing, simulation using FEM and CAD
- Software: Abaqus (or comparable FE-system), Matlab, Python, LabView, MS Office, LaTeX, Origin

**What we can offer you:**

- A flexible work schedule allowing you to balance work and family, among other things the possibility of teleworking
- Secure and future-oriented employment with attractive conditions
- A broad range of further education and professional development programmes (for example language courses)
- An occupational health management model with numerous attractive options, such as our university sports programme
- Supplementary pension scheme (RZVK)
- Discounted tickets on local public transport services ('Job-Ticket Plus' of the saarVV)

We look forward to receiving your **meaningful online application** (in a PDF file) by **21.08.2022** to **s.diebels@mx.uni-saarland.de**. Please include the reference number **W2159** in the subject line of the e-mail.

If you have any **questions**, please contact us for assistance. Your contact:

Herr Prof. Dr.-Ing. Stefan Diebels

s.diebels@mx.uni-saarland.de

Tel.: +49 681 302 2887

Pay grade classification is based on the particular details of the position held and the extent to which the applicant meets the requirements of the pay grade within the TV-L salary scale. Part-time employment is generally possible.

If you have obtained a foreign university degree, a proof of the equivalence of this degree with a German degree by the Zentralstelle für ausländisches Bildungswesen (ZAB) is needed before hiring. If necessary, please apply for this in time. You can find more information at <https://www.kmk.org/zeugnisbewertung>.

Unfortunately, neither costs for attending an interview at Saarland University nor costs for any certificate evaluation by the ZAB can be reimbursed in principle.

We welcome applications regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age, and sexual orientation and identity. In accordance with its policy of increasing the proportion of women, the University actively encourages applications from women. Applications from severely disabled persons will be given preferential consideration in the event of equal suitability.

When you submit a job application to Saarland University you will be transmitting personal data. [Please refer to our privacy notice for information on how we collect and process personal data in accordance with Art. 13 of the Datenschutz-Grundverordnung](#). By submitting your application you confirm that you have taken note of the information in the Saarland University privacy notice.
