New application deadline for Systems Physiology: 27 June 2024!

Equal eligibility. Furthermore, we welcome applications from all qualified candidates irrespective of gender, race, ethnic or religious background, age, sexual orientation or identity.

Professor (W2) for Molecular and Cell Biology

We are looking for an internationally experienced cell biologist with an interest in probing the mechanistic underpinnings of systems-level control. The ideal candidate will be expected to integrate with the current research themes of the Biology department including metabolism and organelles with a focus on multi-scale mammalian cell systems in health and disease. The candidate should have an interest in cellular communication and/or communication nexus systems including mammalian cell systems, organelles, or cells in cell-derived disease. The candidate should be willing to apply toxins or cellular engineering approaches in their work.

The professorships will be based in the Center for Human and Molecular Biology (ZHMB) and the professor will teach courses in the MSc in Human and Molecular Biology. In accordance with the objectives of its gender equality plan, Saarland University is actively seeking to increase the representation of women in tenure track positions.

The Department of Life Sciences is the Faculty of Life Sciences and Technology at Saarland University in Saarbrücken. It is a campus university with an international focus and a strong research profile and offers a broad range of study and research options covering a wide range of life sciences and technology disciplines. As an official member of the University of the Greater Region (UdS) Saarbrücken is inviting applications for the following two positions:

W3 Professor for Systems Physiology

Please apply online via the online application platform under www.uni-saarland.de/berufungen. Application documents must be uploaded as a single PDF file (size: max. 60 MB) and should include the following:

- Cover letter/letter of application (addressed to the Dean of the Faculty NT, Prof. Vielhaber),
- Curriculum vitae (including private address as well as telephone and e-mail address),
- Copies of relevant academic qualifications,
- List of publications,
- An overview of previous teaching and research activities, including teaching evaluations, if available,
- Statement and type of third-party funds received,
- Two-page long teaching and research concepts and your three most important publications of the last three years.

In accordance with the objectives of its gender equality plan, Saarland University is actively seeking to increase the proportion of women in this field. Qualified women candidates are therefore particularly encouraged to apply. Preference will be given to applications from women candidates.
