Saarland University is a campus university that is internationally recognized for its strong research programmes. Fostering young academic talent and creating ideal conditions for teaching and research are a core part of the university’s mission. As part of the University of the Greater Region, Saarland University enables students and staff to share and exchange knowledge and ideas between disciplines, between universities and across borders. With over 17,000 national and international students, studying more than a hundred different academic disciplines, Saarland University is a diverse and dynamic learning environment. [Saarland University is officially recognized as one of Germany’s family-friendly higher-education institutions and with a combined workforce of more than 4,000 it is one of the largest employers in the region.]

The Institute of Experimental Orthopaedics and Osteoarthritis Research is inviting applications for the following position commencing at the earliest opportunity.

**Academic research assistant (m/f/x)**

Reference number W2457, salary in accordance with the German TV-L salary scale¹, pay grade: E13 TV-L, duration of employment: 2 years, volume of employment: 100 % of standard working time.

**Workplace/Department:**

A postdoctoral position is available in the Institute of Experimental Orthopaedics and Osteoarthritis Research at the Medical Faculty (Homburg/Saar) of Saarland University.

We are a young, friendly, international and dynamic group. Saarland is a great place to live in the middle of Europe, next to France, Luxembourg, and Belgium.

Our overarching objective is to decipher the mechanisms of pNaSS-grafted poly(epsilon-caprolactone) scaffold-guided recombinant adeno-associated viral (rAAV) vector-mediated gene transfer that safely enhance human anterior cruciate ligament repair. We investigate new strategies to regenerate damaged ligaments to restore their original functionality. Based on clinical needs, we are developing molecular therapies for the treatment of ligament lesions. We employ patient samples and animal models to perform our evaluations using rAAV gene therapy vectors. The long-term objective is to integrate approaches in gene transfer and tissue engineering to develop improved

---

¹ TV-L = collective agreement on remuneration of public sector employees in the German Länder

The pay grade assigned to an employee depends on their professional qualifications and the number of years of service. Each pay grade is further subdivided into levels. Entry-level employees with no previous experience will initially be assigned a level 1 rating. After one year at level 1 of the E10 pay grade, an employee will move up to level 2. After a further two years, the employee will move to level 3, etc.
therapeutic strategies for ligament lesions and osteoarthritis. Ultimately, we seek to translate this work into improved therapies for patients.

Please see the following recent publications from our lab:

Job requirements and responsibilities:
We are seeking a motivated Postdoctoral Research Fellow to work on an exciting project aiming at improving ligament repair ex vivo and in vivo. The specific project involves up-to-date methods on tissue culture, molecular biology, biochemistry, histology, and histomorphometry in the framework of a DFG funded project.

Your academic qualifications:
- Completed university studies in Biology or Biochemistry/Molecular Biology
- Applicants must have a Ph.D degree.

The successful candidate will also be expected to:
- Strong written and verbal skills are essential
- High motivation
- Willingness to fit into an international team
- Language skills (according to GER): English - B2

What we can offer you:
- A flexible work schedule allowing you to balance work and family, among other things the possibility of teleworking
- Secure and future-oriented employment with attractive conditions
- A broad range of further education and professional development programmes (for example language courses)
- An occupational health management model with numerous attractive options, such as our university sports programme
- Supplementary pension scheme (RZVK)
- Discounted tickets on local public transport services (‘Job-Ticket Plus’ of the saarVV)

We look forward to receiving your meaningful online application (in a PDF file) by 15.04.2024 to magali.madry@uks.eu and office-eo@uks.eu. Please include the reference number W2457 in the subject line of the e-mail.

If you have any questions, please contact us for assistance. Your contact:
Frau Sonja Ramin
Institute of Experimental Orthopaedics and Osteoarthritis Research, Building 37, Kirrberger Straße 100, 66421 Homburg, Germany
Tel.: +49 (0)6841-16-24569
Pay grade classification is based on the particular details of the position held and the extent to which the applicant meets the requirements of the pay grade within the TV-L salary scale. Part-time employment is generally possible.

If you have obtained a foreign university degree, a proof of the equivalence of this degree with a German degree by the Zentralstelle für ausländisches Bildungswesen (ZAB) is needed before hiring. If necessary, please apply for this in time. You can find more information at https://www.kmk.org/zeugnisbewertung.

Unfortunately, neither costs for attending an interview at Saarland University nor costs for any certificate evaluation by the ZAB can be reimbursed in principle.

We welcome applications regardless of gender, nationality, ethnic and social origin, religion/belief, disability, age, and sexual orientation and identity. In accordance with its policy of increasing the proportion of women, the University actively encourages applications from women. Applications from severely disabled persons are expressly welcome and will be given preferential consideration in the event of equal suitability.

When you submit a job application to Saarland University you will be transmitting personal data. Please refer to our privacy notice for information on how we collect and process personal data in accordance with Art. 13 of the Datenschutz-Grundverordnung. By submitting your application you confirm that you have taken note of the information in the Saarland University privacy notice.
