Student assistant

wanted

with a major in

Computer Science, Bioinformatics, Pharmacology, Biology, Chemistry

or related majors

– 15-20 hours/week –

For a period of 6 months

The Environmental Safety Group at KIST Europe is looking for a student assistant to support and strengthen our international team. Our group’s research focuses on the environmental health and safety, and chemical risk assessment highlighted and required in the field of global chemical regulations.

Responsibilities:

■ Assistance with programming tasks for developing a website and applications

Requirements:

■ Excellent knowledge of the English Language
■ Programming experience (ASP, JAVA, CSS, etc.)
■ Experience on developing web tools would be advantageous

We offer:

■ A good working environment & flexible working hours
■ A convenient location situated directly on campus

Please send your application with your CV (in English) via e-mail at Dr. Jongwoon Kim. E-mail: jwkim@kist-europe.de
