COMPANY DESCRIPTION

SAP’s vision is to help the world run better and improve people’s lives.

As the cloud company powered by SAP HANA®, SAP is a market leader in enterprise application software, helping companies of all sizes and industries run better. SAP empowers people and organizations to work together more efficiently and use business insight more effectively. SAP applications and services enable our customers to operate profitably, adapt continuously, and grow sustainably.

At SAP, we believe in the power of collaboration and empower our employees to perform at their best in an environment that encourages free and open expression of ideas. You’ll work alongside creative thinkers who share your interests, while turning big ideas into reality for our customers. With innovative job training, mentors to help you grow, and the flexibility to balance your work and personal life, you’ll be able to get more out of your career. It’s no wonder that some of the sharpest minds from around the world are working for a company that is consistently recognized as a global top employer.

Now it’s your turn to take the next step and help make the world Run Simple.

PURPOSE AND OBJECTIVES
The Global Business Operations (GBO) organization, led by SAP’s COO, has set out to help SAP Run Simple, by leveraging IT as the enabler for lean, automated and thus simplified processes. In doing so, we aim to achieve tangible results for the business and real showcases for our customers.

Having access to the breadth of SAP’s solution portfolio and own development teams, we are fortunate enough to be able to manage our own Digital Transformation. During this Digital Transformation, the COO (GBO) Board Office in particular focuses – in addition to the characteristic front office tasks – on two major things:
1. One of the most important tasks is to showcase to our customers how SAP runs simple, or in other words: How SAP runs SAP. We need to share our challenges, learnings, and best practices on our journey to becoming our own best reference customer. To achieve this as efficiently as possible, the GBO Board Office coordinates all COO customer engagements and major event participations on the one hand, while creating showcases and product demos to highlight the value we achieve with our own solutions, on the other.
2. In close collaboration with the Digital Transformation Office, the COO (GBO) Board Office further executes on SAP’s vision, bringing it to life by aligning SAP’s strategy with the operational reality and
initiating the necessary action to drive that vision forward. In essence, the team helps to accelerate SAP’s Digital Transformation across functions and board areas.

**EXPECTATIONS AND TASKS**

Develop and improve the SAP runs SAP showcases using JavaScript & SAP UI5
Support the COO and GBO Board Office by developing and customizing applications that simplify their daily business
Cooperate with end users to define and deliver the best user experience as well as new functionality for SAP and our customers
