**Company description**:
SAP is the world leader in enterprise applications in terms of software and software-related service revenue. Based on market capitalization, we are the world’s third largest independent software manufacturer. Browse company facts and information below.

**Job description**:
Requisition ID: 183278  
Work Area: Information Technology  
Location: Walldorf/St. Leon-Rot  
Expected Travel: 0 - 10%  
Career Status: Student  
Employment Type: Limited Part Time

**COMPANY DESCRIPTION**
SAP started in 1972 as a team of five colleagues with a desire to do something new. Together, they changed enterprise software and reinvented how business was done. Today, as a market leader in enterprise application software, we remain true to our roots. That’s why we engineer solutions to fuel innovation, foster equality and spread opportunity for our employees and customers across borders and cultures.

SAP values the entrepreneurial spirit, fostering creativity and building lasting relationships with our employees. We know that a diverse and inclusive workforce keeps us competitive and provides opportunities for all. We believe that together we can transform industries, grow economics, lift up societies and sustain our environment. Because it’s the best-run businesses that make the world run better and improve people’s lives.

**PURPOSE AND OBJECTIVES**
SAP IT Services is a critical enabler of our business success by providing advanced and efficient IT solutions, technology and operational support to our internal clients. Supporting more than 80,000 users and thousands of SAP systems, we are responsible for delivering business applications be it classical SAP or new SaaS solutions, mobile apps, web & SAP Cloud Platform-based applications, as well as client technology services covering hardware, client software and unified communications solutions.

Within IT Services the unit Enterprise Architecture team is responsible for all topics regarding architecture strategy, roadmaps & governance across the enterprise. Our key objectives are:

- Definition of a holistic end-to-end technology strategy and architecture to enable SAP’s cloud transformation
- Documentation of SAP’s Enterprise Architecture and leveraging it to make investment decisions and support delivery excellence
- Creating the big picture architecture for SAP aligned with SAP’s product Strategy and figure out how to incorporate new technologies and trends like Big Data, IoT etc.

**EXPECTATIONS AND TASKS**
You get an overview of the IT application landscape and its architecture by
administrating the collaboration between the SAP IT departments and the SAP standard development departments, e.g. by providing reporting and quality checks for the process or by preparing meetings. 
supporting architecture governance boards with respect to decision tracking and ensuring transparency.
