COMPANY DESCRIPTION
SAP’s vision is to help the world run better and improve people’s lives.

As the cloud company powered by SAP HANA®, SAP is a market leader in enterprise application software, helping companies of all sizes and industries run better. SAP empowers people and organizations to work together more efficiently and use business insight more effectively. SAP applications and services enable our customers to operate profitably, adapt continuously, and grow sustainably.

At SAP, we believe in the power of collaboration and empower our employees to perform at their best in an environment that encourages free and open expression of ideas. You’ll work alongside creative thinkers who share your interests, while turning big ideas into reality for our customers. With innovative job training, mentors to help you grow, and the flexibility to balance your work and personal life, you’ll be able to get more out of your career. It’s no wonder that some of the sharpest minds from around the world are working for a company that is consistently recognized as a global top employer.

Now it’s your turn to take the next step and help make the world Run Simple.

PURPOSE AND OBJECTIVES
The department Value Prototyping within SAP SE is a global and international operating team with offices in Walldorf and Palo Alto. Value Prototyping is a Cloud-based Solution Engineering Service to accelerate the solution finding, decision and realization process by delivering workshops, prototypes and templates for new or customer-specific use cases. This involves using the latest SAP product portfolio, all relevant technologies as well as the latest technologies. Furthermore we have our own infrastructure team as well as our own data center.

EXPECTATIONS AND TASKS
As a Student you will be part of our team for a period of at least 6 months. You have the opportunity to get familiarized with one of our business solutions.
You will support our team in the following tasks:

Getting into business processes
Creation of tests cases and customer documents
Preparing Workshop material
Testing
