Digital education is our mission. **WE EMPOWER PEOPLE.**

Using digital learning solutions, we help national and global organizations to develop their employees in an innovative, motivating and effective way.

We are looking for an enthusiastic colleague, eager to join our team in Saarbrücken or Freiburg.

As an experienced C# / .NET Developer (f/m) you will be part of our international team for IMC Process Guide – the GPS for software applications.

**Your tasks**

- Development of modern, high-quality, high-performance desktop applications;
- Implementation of technical concepts by creating new or adapting existing software components;
- Participation in agile software development projects following SCRUM.

**Your strengths**

- Bachelor or Master in Computer Science, Engineering or equivalent;
- Basic knowledge of methods, tools and processes in agile software development;
- Multiple years of experience in C# and the .NET framework developing Microsoft Windows applications;
- Knowledge of WPF and XAML is a plus;
- Fluency in English language (written and spoken) is mandatory, knowledge of German language is a plus;
- Excellent analytical and problem-solving skills;
- Structured approach paying high attention to details;
- Motivation to work well within a team as well as individually;
- Ability to communicate effectively in the workplace, both verbally and in writing.

**What we offer**

- Being part of an international team of experienced, highly motivated colleagues, who are happy to support you if needed, as well as an interdisciplinary and cooperative work environment;
- Possibility to apply your enthusiasm for new technologies and innovative development tools, especially in the field of digital learning;
- You contribute to multifaceted and unique projects for our globally renowned customers;
- Interesting challenges as well as a steep learning curve are waiting to be mastered by you.
